CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Sree Narayana College for Women, Kollam, Kerala being an affiliated college, closely follows the scheme, structure and syllabus outlined by the University of Kerala, Thiruvananthapuram. We follow a strict methodology for ensuring the effective delivery of the curriculum. At the very outset, the Principal convenes meetings with the various department heads for chalking out strategies to implement the curriculum productively. The academic calendar proposed by the university is circulated to all departments and followed systematically. Teachers are also directed to impart the scheme and syllabus by employing innovative teaching methods. New and improved teaching methods that go beyond the chalk and talk methods are employed by the faculty which includes power point presentations, discussions and debates and attending of seminars and workshops. The qualitative conveyance of the curriculum is scrupulously monitored by the Department and College Level monitoring committees. Special classes, if needed, are engaged during vacation or off hours to compensate for the time lost in examination/evaluation or due to unexpected strikes or holidays. Students are regularly exposed to invited talks and lectures by eminent personalities on various topics relevant in the current socio-cultural scenario. The institution also promotes students and teachers to actively involve in societal issues and perform their part as responsible citizens. The performance upgradation of faculty members is ensured in our institution by encouraging them to participate in Orientation and Refresher courses, enhance their research activity and update their knowledge about the new trends and tendencies in their respective disciplines by attending seminars, workshops and conferences. Faculty members also extend their participation in curriculum designing as members of various academic bodies of the University. Our college library which employs the Open Access System is a repository of books and resources. It includes a comprehensive and inexhaustible collection of reference materials which cater to the literary and information quest of both students and teachers. PG students, research scholars and teachers can utilize the INFLIBNET service provided by the library. The library committee conducts regular meetings and takes appropriate decision regarding the requirement and procurement of books, journals, magazines, e-journals and other materials. The students participate in social service and extension activities through the various clubs functioning in the college as per the university regulation. The club activities boost the creative potential of students and also ensure to buoy up their artistic, science and sports skills alike. The IQAC routinely monitors the teaching-learning processes, the effective delivery of curriculum and also ensures that the portions are completed and exams are conducted within the stipulated semester span. Our college also pursues the tutorial system wherein tutors counsel students with learning difficulties and help them improve their academic performance in the upcoming examinations. The mentors also focus on the holistic development of the students. SSP, WWS, ASAP and Remedial programmes are handled expertly by coordinators and faculty members with considerable progress in the students. Both arts and science disciplines make use of innovative classroom techniques like Google class room and Kahoot.

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?
(maximum 500 words)

Feedback Obtained

Our institution regularly collects feedback from different stakeholders such as students, teachers, alumni and parents. Evaluation of all college level activities and programmes with the respective stakeholders is conducted. The IQAC team of our college ensures the quality consistence and quality enhancement of teachers and students alike. An annual feedback assessment meeting will be conducted by the Principal along with the teaching and nonteaching staffs separately to ensure quality enrichment in all fields of activity. Teachers are directed to prepare selfappraisal reports at the end of each academic year to keep track of their progress. The Principal evaluates the reports and intervenes and addresses possible areas of improvement. The tutors collect feedbacks from their respective classes annually, which are then subject to evaluation in a department meeting organized by the HODs. Apart from this student feedbacks are also collected by the Principal and are communicated to the respective faculty members. Concerns and suggestions raised by students are assessed and possible measures are taken for the betterment of academic quality. The Former Students' Association (FSA) of our college conducts annual meets and cultural programmes. Feedbacks are gathered from alumni members as well. Parents' meetings are conducted biannually after the publication of end semester results. The students' progress and performance details are communicated to their guardians and their feedback is also collected for analysis. The college endeavors to integrate socially relevant issues into the curriculum with the help of the different cells and clubs functioning in the college like Career Guidance Cell, Caste Based Discrimination Prevention Cell, Human Rights Forum, Community Health Club, Women's Study Unit, Nature Clubs, AntiRagging Cell, and NSS.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Upholding the vision and mission of our institution, we employ innovative mentoring methods to empower the student community of our college. As many of our students are from varied backgrounds, we focus on rendering equitable service to all students through mentoring system. The following higher education initiatives are followed in the college. 1. Walk With a Scholar: Walk With a Scholar (WWS) scheme proposes to arrange specialized mentoring programs for students in Under Graduate Programs in Arts, Science and Commerce and to provide guidance for their future. The scheme introduces the idea of mentoring and builds on the concept of mentor as a 'Guide' and 'Friend'. 2. Scholar Support Programme: The Scholar Support Programme aims at imparting additional support to students in curricular areas of weakness. 3. Additional Skill Acquisition Programme : The Programmes aims at equipping selected college students with skills in Communication, IT and selected areas of industry and service sectors. In addition to this, mentoring programmes like Remedial Coaching, Career Guidance and Counselling, Grievance Redressal Cell and Tutorial System are also functioning in our college. To enhance the employability of students various departments arrange career coaching classes and workshops. Under the aegis of Entry into Service programme, students are trained to attend various competitive exams like PSC and UPSC exams, NET, SET, JAM, JEST, Banking Recruitment Board.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The primary aim of our institution is to expose the students to good educational and moral training so as to help them with necessary potential for career advancement in the field of science and technology as well as in other branches of knowledge. Our college fosters value education and ethics as an unparalleled motive that needs to be inculcated among the students. Value education is essential as the ideals and values that form a basis of sustainability include equity among generations, gender equality, tolerance, poverty alleviation, environmental preservation and restoration, social justice, human rights, cultural diversity, international understanding and peace among others. The youth of today seem to have lost all decent social, moral and ethical values There should be equilibrium between knowledge and skills that science and machinery bring with the values and insights of ethics. The moral and ethical values that make us honest individuals can be inculcated only by valuebased education. Knowledge Based Education can only be transferred to our younger generations but Value Based Education (VBE) can transform them. It is more awakening and informing. For lifeoriented education, we need to create a special environment in institutions to transform our students. The aim of our institution is to adhere to our motif of Enlightenment through Education on all these human values as there is an urgent need to revamp the entire educational system to make value education an integral and important component of education. It endeavours to mould a humane, intellectually accomplished, morally awakened and socially committed set of young women.
